WORK EXPERIENCE

Technical Trainer / Project Manager– MERN Stack & UI Development

PENTAGONSPACE PVT LTD, *Bengaluru*
AUG 2021– *Present*

- Develop and deliver comprehensive training programs covering MERN stack technologies, Oracle SQL, and front-end development best practices.
- Design course materials, including presentations, coding exercises, and assessments, to facilitate effective learning outcomes.
- Conduct live and virtual training sessions for students and professionals, ensuring engagement through hands-on coding examples and real-world scenarios.
- Assess trainees' progress, provide constructive feedback, and adjust training methods to accommodate different learning styles and technical proficiencies.
- Collaborate with software development teams to stay up-to-date with industry trends and integrate new technologies into training programs.
- Mentor junior developers, providing guidance on best coding practices and software design principles.

Full-Stack Developer / Technical Consultant

XOLCANO TECHNOLOGIES PVT LTD, Bengaluru
AUG 2020– AUG2021

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB to meet client requirements.
- Created dynamic and responsive user interfaces, ensuring cross-browser compatibility and adherence to UI/UX design standards.
- Built and optimized RESTful APIs, managing data flows between the front end and back-end databases.

- Utilized Oracle SQL to design and manage relational databases, write complex queries, and perform data analysis.

- Worked in an agile environment, participating in daily stand-ups, code reviews, and sprint planning.

- Provided technical training and support to internal teams on new software tools and technologies.

KPMG, Bengaluru
NOV 2019– AUG 2020

Service Now Developer

- Developed and configured custom applications on the ServiceNow platform, creating business rules, workflows, client scripts, and UI policies to automate IT processes.

- Designed and implemented custom solutions using ServiceNow Studio, including dashboards and reporting modules to enhance data visibility.

- Created ServiceNow Service Catalog items and configured advanced scripting for automating complex workflows.

- Worked with IT teams to integrate ServiceNow with external systems, ensuring seamless data transfer and synchronization.

- Participated in requirements gathering and collaborated with stakeholders to understand business needs and deliver tailored solutions.

- Worked in an agile environment, participating in daily stand-ups, code reviews, and sprint planning.

I hereby declare that the above furnished particulars are true to the best of my knowledge and belief. I would take this opportunity to thank you for going through my resume and would request you to consider me to be a part of your prestigious organization.
